IRC412 Exterior Dimensions- 4.5"H x 12"W x 14"D Weight- 15 LBS

- Heavy duty steel construction offers excellent burglary protection.
- Convenient motorized locking system, incorporating the latest technology.
- Easy to read, large LED display lets you know the status of the safe.
- 4 to 6 digit combination, reliable ADA approved keypad.
- Electronic override can be set by security personnel.
- Runs on 4 AA batteries. If batteries should go dead, each safe has a by-pass power cable (9v battery required).
- Low-profile configuration that fits easily into a drawer. Only requires a 5" clearance.
